Ind-AS Simplified for Professionals

An Overview

“In almost all domains across Commerce - Management, Finance, Taxation, Audit; reading and understanding the financial statements is the most basic task. This is not possible without understanding and updating oneself about the basis of preparation, i.e. Ind AS. I am glad to launch a 35-hour quick, yet comprehensive understanding of Ind AS for Professionals across all domains in a classroom format to understand the core of all the standards in the simplest manner.”

“Teaching Chartered Accountant aspirants for over 3 decades, it gives me immense pleasure to see my students reach such heights. My interaction with my past students, regarding the challenges faced by them in the implementation of Ind - AS and my own experience in going through annual reports while tracking financial markets for decades, pushed me to design this course for professionals. I feel happy to teach my old students once again.”
